

Ready for hassle-free Cirrus aircraft ownership? Then, CalAir's Aircraft Management team is ready to help! With over 10 years experience and over 10,000 accident-free fleet hours, our team is here to ensure your ownership is cost-efficient, rewarding, and worry-free.

Our Aircraft Management team will ensure your aircraft's:

- Logbooks are kept up-to-date with the latest revisions
- Avionics databases and software downloads are uploaded and checked for accuracy
- Superbly cleaned and detailed regularly

You'll also have the confidence of personalized attention should the unexpected maintenance issue arise while en-route or on a trip, all for one low monthly fee.

And if you're considering the purchase of a new or previously-owned Cirrus aircraft, CalAir's Sales team members can help you purchase your dream aircraft or aid in the sale of your current airplane. Our close relationship with Cirrus Aircraft guarantees you a pleasant and seamless experience from demo flight to final sale.
